

One Click Digital Photography and Online Image - Perfect Combination!

Digital Camera

In-built 3 MPix digital camera to capture unique images.

Optics to Your Wishes

The latest plan or semiplan lenses for a perfect view of all details.

Perfect LED Illumination

White LED light does not distort any of your specimen. Ingenious system of diaphragms with centerable condenser provides perfect contrast.

No Fatigue of Your Eyes

Observe the images online on your laptop display or interactive whiteboard. You will appreciate the combination of microscope and camera not only in the classroom. You will miss no details any more!
